Enterprise Equipment

Founded in 1976, Frontier Computer Corp. is a worldwide resource for IT professionals. Our 40,000 sq. ft. warehouse—centrally-located in the United States—holds more than 100,000 new and refurbished servers, drives, and networking products, as well as EOL and hard-to-find parts. All hardware shipped from our technical center undergoes rigorous testing and has passed certification.

Maintenance

Since we work every day with a range of products from multiple vendors, FrontierUS has exactly the expert service technicians you need to keep your systems up and running. We can create custom maintenance plans for a fraction of OEM costs.

SD-WAN & Connectivity

As the world's largest distributor of Peplink & Pepwave SD-WAN products, we provide our channel partners with unparalleled access to futureproof connectivity technology.

We also offer:

- Peplink, Axxess Marine, and Poynting antennas
- WilsonPro & weBoost signal amplifiers
- Grandstream and Yealink VoIP phones
